Auditions set for *Wizard of Oz* production at The Legacy Theater

Auditions for the Missoula Children's Theatre production of *The Wizard of Oz* at The Legacy Theater in Carthage, will be held on Monday, Jan. 27, from 4 to 6 p.m.

Performances will be held on Saturday, Feb. 1, at 2 and 6 p.m. at The Legacy Theater.

There are roles for students in kindergarten through twelfth grade. Approximately 50 local students will be cast to appear in the show. Up to four students will be cast as assistant directors. There is no guarantee that everyone who auditions will be cast in the play.

Students wishing to audition must arrive by the 4 p.m. starting time and stay for the entire two-hour session. The first rehearsal begins approximately 15 minutes after the audition.

This is a group audition. No advance preparation is necessary. Students should be ready to come and have a good time.

Rehearsals will continue in two sessions each day between 4 to 8:15 p.m. at The Legacy Theater, Tuesday through Friday, Jan. 28 to 31. A detailed rehearsal schedule will be distrib-

uted at the conclusion of the audition.

Although not all cast members will be needed at every session, students who audition must have a clear schedule for the entire week and if selected, be able to attend all rehearsals required for their role and be available for all scheduled performances.

Tickets for both shows are available now online, www.thelegacytheater.com, or

Denim for Dollars employee campaign

The latest recipients of the Spoon River College Denim for Dollars employee campaign for 2024 were Fulton-Mason Crisis Service, Girls Unplugged, and the Spoon River College Foundation (hardship funds and food pantry), with each receiving \$283.31.

The college created the Denim for Dollars campaign in 2023, allowing employees to wear jeans throughout the work week for a \$25 donation every six months. The money is then divided and distributed to different organizations twice a year. During July through December, \$850 was raised, and a total of \$2,475 was raised for the entire year.

Regular recipients are Girls Unplugged, SRC Foundation, Fulton-Mason Crisis Service, and WIRC-CAA Victim Services, and employees have the option of nominating other charities or organizations to also receive a percentage. Past recipients that have been nominated and received funds are The Canton Learning Collaborative, Linda's Fund, Humane Society of McDonough County, Cuba Food Pantry, The Good Pantry, and W.D. Boyce Council (Boy Scouts of America).

Girls Unplugged is a free community-led after school group for 5th through 8th grade girls at Ingersoll Middle School and is sponsored by Canton Park District, MidAmerica National Bank, Spoon River College, and YWCA of Canton.

STRANGE BUT TRUE

By Lucie Winborne

* Shonda Rhimes got the idea for the TV series "Grey's Anatomy" after a doctor told her how hard it was to shave her legs in the tiny hospital shower.

* The first Hershey's chocolate bars with almonds were produced in 1908 because they were cheap to make. The nuts took the place of some of the more expensive milk chocolate, which meant Hershey's could keep the price of the candy at a nickel.

* A website called Myfridgefood.com lets you enter whatever ingredients you have in your fridge and tells you what you can make with them.

* One of the reasons your lungs feel refreshed when walking through a pine forest is because of an anti-inflammatory compound called a-Pinene, found in conifers. It is used as a bronchodilator in the treatment of asthma and is abundantly present in marijuana.

* An estimated 10% of Europeans are immune to HIV infection because they have an ancestor who survived bubonic plague, or "Black Death."

* The Hardy Tree in London's St. Pancras churchyard is named for Thomas Hardy. The Victorian author worked at the burial ground in the 1860s and rearranged tombstones around the base of an ash tree to make room for a railway expansion.

* If you're a man and pee on a pregnancy test and it's positive, you could have cancer.

* Because of the amount of granite in its construction, Grand Central Station produces more radiation than is allowable at a nuclear power plant.

* In India, a statue of Jesus had "holy" water mysteriously dripping from its toes, which worshipers would collect and sometimes drink. A man traced the fluid's source to a clogged toilet behind the wall, condensing on the statue.
