## STRANGE BUT TRUE

By Lucie Winborne

\* The beloved Sesame Street characters Bert and Ernie were named for a police officer and taxi driver in Frank Capra's holiday classic "It's a Wonderful Life."

\* Biologists named a species of ants unique to New York City "ManhattAnts."

\* Due to a shrimp's open circulatory system, it has no arteries, and its organs just float around in its blood.

\* British military tanks are equipped to make tea.

\* The longest walking distance in the world, from Magadan in Russia to Cape Town, South Africa, is 14,000 miles. Be sure to take plenty of extra shoes!

\* On the other hand, if you're more in line for a much quicker journey, hop on the world's shortest commercial flight, from Westray Island to Papa Westray Island in Scotland -- it'll take all of 90 seconds.

\* IKEA rugs were used for the Night's Watch cloaks in Game of Thrones.

\* Abraham Lincoln remains the only U.S. president ever to have held a patent. While his invention was registered as a device for "buoying vessels over shoals" in 1849, it was never actually used on boats or made commercially available.

\* Hellmann's, anyone? In some countries, mayonnaise is a popular pizza topping.

Thought for the Day: "Great thoughts speak only to the thoughtful mind, but great actions speak to all mankind." -- Theodore Roosevelt
