Upcoming Community Outreach Classes at Canton SRC

Canton - The Spoon River College Office of Community Outreach is offering several classes this Spring in Canton. Outreach classes provided short term educational opportunities that enhance personal or professional development. Below is a listing of our upcoming classes in Canton.

Intro to Microsoft Excel will be held on Tuesday, May 7th from 3-6pm. Excel can help you create budgets, charts, schedules, and databases. Students in this class will learn the basics of Excel and how to apply it in everyday life. If you need to track anything in your life, Excel is the program you need! Instructor is Andrea Barbknecht.

Paul Harvey in Canton: The Rest of the Story will be held on Wednesday, May 22nd from 5:30-8pm. For more than a half-century from the 1950's through the early 2000's he was the most listened-to man in radio with an estimated daily audience of 24 million people. Paul Harvey was heard on more than 1,200 radio stations nationally and another 400 on Armed Forces Radio throughout the world. On February 19, 1963 he came to Canton to speak at a Lincoln Day event. We'll listen to a preserved speech of this event and the three short programs he used on his radio broadcasts in the following months. The speech covered everything from the just-ended Cuban Missile Crisis, to his thoughts on television, to political strife in the U.S., to human equality, and much more. You might even discover things aren't that much different today than they were 61 years ago! We'll have plenty of time for discussion and for you to share your stories and memories throughout the evening. Instructor is Kevin Stephenson.

STRANGE BUT TRUE

By Lucie Winborne

* The Aztec death whistle produces a horrifying sound sometimes described as "the scream of a thousand corpses."

* "Miracle" berries stop human taste buds from discerning sourness for about 30 minutes.

* Beginning in June of 1979, as Skylab's re-entry approached, many American newspapers jokingly proposed "Skylab insurance," which would pay their subscribers for death or injury caused by flying orbiter fragments.

* There's a territory in Costa Rica called Territorio de Zaguates, or Land of the Strays, which is basically a huge, no-kill dog shelter where one can hike for free with the canines.

* And while we're on the subject of dogs: "Dogfooding" is the term for using a company's product to gain the trust of customers. It's said a dog food company president ate a can of the firm's food in a shareholders meeting to demonstrate that "if it's good for me, it's good for your dog." We'll take his word for it, thank you.

* The fertilizer used by the tobacco industry is radioactive.

* In 1970, actor Bill Murray joked to a fellow airline passenger that he had two bombs in his bag. The jest backfired when U.S. marshals searched his luggage, discovered \$20,000 worth of marijuana, and arrested him.

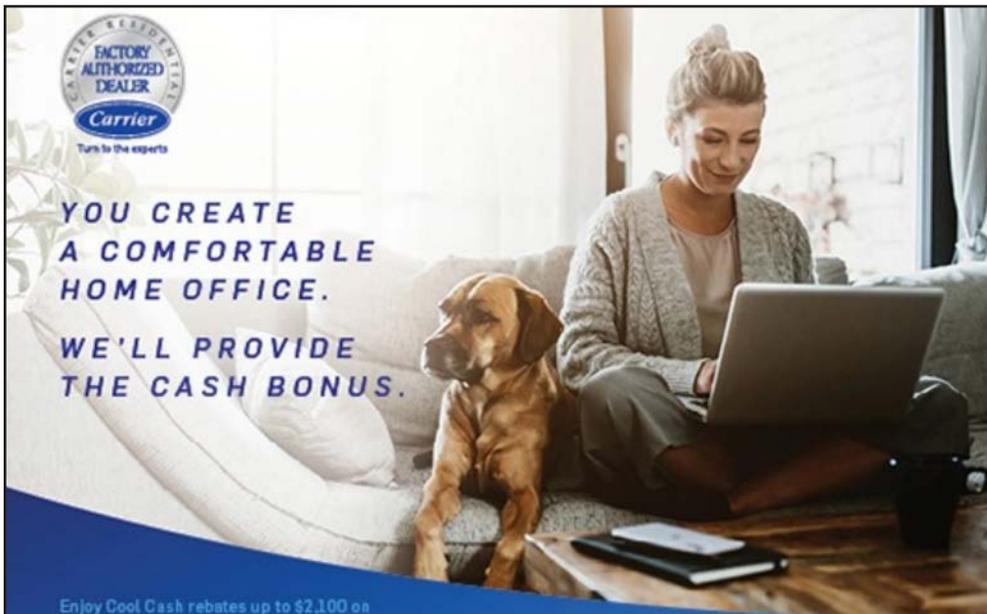

* The Black Diamond is a rare (and expensive) apple, with its jet-black hue, sweeter-than-honey taste, and crispness unmatched by any other apple. But don't look for it in your local grocery store; you'll only find this gem in Tibet.

* De-scented skunks make great pets, similar to ferrets. They're extremely docile and can even learn tricks and be called by name.

* Louis Chevrolet died bankrupt and poor working as a mechanic for the company he started.

Thought for the Day: "Don't spend time beating on a wall, hoping to turn it into a door."
