IDPH Celebrates American Heart Month in February

Governor, lieutenant governor join effort to promote heart health

SPRINGFIELD – The Illinois Department of Public Health (IDPH) is announcing a monthlong focus on heart health during American Heart Month in February. The annual observance serves as a reminder to the public about the dangers of cardiovascular disease and the resources that are available to help people maintain heart health. Governor JB Pritzker and Lieutenant Governor Juliana Stratton joined IDPH Director Dr. Sameer Vohra in urging the public to be aware of, and to take care of, their heart health.

"Heart disease remains the number one cause of death both nationally and right here in Illinois," said Director Vohra. "But heart disease can be preventable when we are aware

of our own personal risk factors. The first step in prevention is identifying what can make your heart unhealthy, such as untreated high blood pressure, high cholesterol, and high levels of stress. Next, create a heart-healthy action plan. Finally, schedule a check-up with your medical provider and take control of your heart health today."

"Heart disease remains the leading cause of death in Illinois and across the country, but many risk factors are preventable," said Governor JB Pritzker. "This Heart Health Month, take charge of your well-being and schedule a screening, make heart-healthy choices, and encourage your loved ones to do the same."

IDPH

continued from page 1

If you need support, the Illinois Department of Public Health has great resources to help you stay on top of your heart health. A little prevention today can lead to a healthier tomorrow."

"So often as women, we take care of everyone around us before ourselves. Heart disease is the leading cause of death in women, who are especially vulnerable during high stress phases of life," said Lt. Governor Juliana Stratton. "February 7th is Wear Red Day, and a great reminder to take care of you. Your heart

and your health matters!"

Among the events planned to promote heart health during February are a blood drive on Thursday, Feb. 6, from 10:30am to 2pm at the IDPH Springfield headquarters, 535 W. Jefferson St. The next day, Friday, Feb. 7, is "Wear Red for Women Day," in which everyone is encouraged to wear red as a reminder to women to have regular checkups and to talk with their physician about warning signs of heart trouble.

IDPH's men's health program will also have targeted messaging during the month, with an emphasis on disproportionate rates

of early-onset heart disease in young males generally, and specifically among young Black males.

IDPH social media channels will also be busy during the month, with frequent messaging about heart disease risks and prevention strategies, including

- The benefits of regular checkups and frequent monitoring of blood pressure and cholesterol levels
- The symptoms of a heart attack
- The heart benefits of adequate sleep, proper diet, physical activity, and giving up smoking
- And more.

You can connect with IDPH social media on Facebook, X, Instagram, Bluesky, Threads, and LinkedIn.

IDPH has also made radio public service announcements on heart health available once again to radio stations across the state. Those audio PSAs can be found at Public Service Announcements.

Additional information about heart health can also be found on the IDPH website at Heart Disease.

STRANGE BUT TRUE

By Lucie Winborne

* It is illegal to publish photographs of handcuffed suspects in France, as they're not to appear guilty until actually proved so.

* The word "king" in a snake's name indicates that it preys on other snakes.

* St. Lucia is the only country in the world named after a woman. Originally called the Island of the Iguanas by early Carib settlers, the name was later changed after French seamen were shipwrecked there on Dec. 13, the feast day of St. Lucy.

* Studies have shown that spending only a few minutes every day in the New York City subway system can ultimately result in hearing loss.

* When you snap your finger, it moves at about 20 mph.

* Pope Gregory I decreed that rabbit fetuses were marine mammals and they could therefore be eaten during Lent.

* A bobsled is so named because early racers bobbed their heads back and forth in an attempt to gain speed. (It didn't work.)

* The annual World's Biggest Liar competition in Cumbria, England invites entrants from around the world to tell the biggest and most convincing lie they can muster in five minutes. No props or scripts are allowed, nor are politicians or lawyers permitted to compete, as "they are judged to be too skilled at telling porkies."

* More than four tons of old U.S. paper money is mulched into compost every day.

* Cockroaches are so repulsed by humans that if they're touched by a human, not only do they run away, but they wash themselves. (Personal to cockroaches: The feeling is mutual!)

* Bananas are curved because they grow towards the sun, in a process called "negative geotropism."

Thought for the Day: "Let us be grateful to people who make us happy, they are the charming gardeners who make our souls blossom." -- Marcel Proust
