4.

PURCHASE & NEW CONSTRUCTION TEAM

For your clients focused on these types of time sensitive transactions, we have a solution. By working hand-in-hand, we can alleviate common issues that arise.

5.

GEOSELECT

We go the distance to ensure your appraiser doesn't have to by selecting appraisers based on proximity and historical work completed in the specific area. This ensures geographic competency every time.

6.

BORROWER COMMUNICATION

Often the borrower will make a payment for an appraisal to an AMC that they never hear from. That is not the case with Atlas; we provide borrowers with the information and tools to be prepared for their appointment and to understand their report once they receive it. We make our team available to borrowers to answer any questions and alleviate any concerns.
