

CareFi Dental™

FRESH FEELING ORAL RINSE™ PRODUCT USE DESCRIPTION SUMMARY

- **Purpose:** Naturally supports and improves oral mucosa and gum health. Excellent nurturing post radiation, chemotherapy, surgery, and during braces and denture irritation.
- **Primary Benefits:**
 - Reduces feelings of painful inflamed ulcers and canker sores.
 - Improves proper conditions towards healing of gums and oral tissue after dental procedures.
 - A fresh and hydrated mouth makes swallowing easier.
- **Mechanism of Action:**
 - Proprietary natural blend of humectants, herbal extracts and vitamins.
 - Hydrates, soothes, nourishes, and coats oral tissue.
 - Provides proper environment so the mouth may repair itself.
- **Special Ingredients & Effects:**
 - Enhances the body's anti-inflammatory capability.
 - Mucosa lining improves faster.
 - Antioxidants protect against oxidative stress.
 - Ingredients may help target and assist radiation burn recovery.
- **Clinical Relevance:**
 - Supports recovery from cancer treatments, dental surgeries, and orthodontic procedures.
 - Minimizes downtime and promotes faster return to normal oral function.

FRESH FEELING ORAL RINSE™: Unit size 22ml

Directions: 1.8ml (approximately 1/3 tsp) applied to spoon. 12 servings per bottle. Use 3 times daily, 30 minutes prior to eating or drinking. Swish and hold for 3 minutes or longer and spit out. Allow the residual humectants to coat your mouth with a minty moisturizing sensation! Don't drink anything for at least an additional 15 minutes afterwards. 1st day use 3 times equally apart. 2nd day repeat the Fresh Feeling process.

Ingredients: Honey, Glycerin, Alpha Bisabolol, Niacinamide, Panthenol, Quillaja Saponaria Bark Extract, L Glutamine, Mentha Piperita (Peppermint) Oil, Eugenia Caryophyllus (Clove) Bud Oil
