Current Registrations & Certifications

Past Performance

LaSalle
— COLORADO

City of LaSalle

We have worked with the City of LaSalle, CO for over 20 years, providing BioTec for their wastewater lagoon to help manage their sludge levels and maintain a healthy environment for the members of their community.

Borchers Supply, Inc.

Borchers Supply, Inc. in Howarden, IA has been a user and distributor of our herbicide enhancer called SurTec for many years. They purchase truckloads every season, use it in their aerial spraying services, and supply farmers and dealers with this game-changing all-in-one tank mix.

Capital City Oil, Inc.

Capital City Oil in Topeka, KS has been using our industrial cleaner called Formula 144 to clean off hydraulic fluid, clean up diesel fuel spills, and clean the rubber skid marks off floors. They've been able to clean things they never thought they could, all through the best green cleaner on the market.
