

CleanGreen®

FORMULA 144

Principal Functioning Agent:

Soap (the water soluble sodium or potassium salts of fatty acids produced by either the saponification of fats and oils, or the neutralization of fatty acid).

General Use Directions

Formula 144 is a 100% biodegradable, non-ionic surfactant designed to improve the operation of engines, various mechanics, and general machinery by effectively dissolving oils, waxes, and grease build-up which naturally occurs from usage.

Recommended Application Rates

Formula 144 should be used at a 4:1 ratio concentration for general machine cleaning and engine degreasing. For tough build-up and harder cleaning/degreasing, Formula 144 should be used at a 2:1 ratio.

Product can be applied by hand, through a hand sprayer, pump sprayer, hose attachment, or as a wash dip.

For heavily soiled areas, spray Formula 144 solution onto object and let sit so that micelles can begin break-down process. Object can also be soaked in solution at consumer's discretion.

Caution: Keep out of reach of children.

Harmful if swallowed. If ingested, consult a physician. Avoid prolonged contact with skin. In case of eye contact, flush with plenty of water for at least 15 minutes.

Gallons: _____ Net Weight: 8.75 lb. per gallon
