## Past Performance

### City of LaSalle

We have worked with the City of La Salle, CO for 20 years, providing BioTec for their wastewater lagoon and managing their waste levels to maintain a healthy environment for their community.

### Grimmway Farms

One of our clients is the world's largest carrot producer, Grimmway Farms. We have provided our Huma-Tec to clean their soils of nematodes while ensuring their biological and nutrient levels are at their highest and most qualitative of states.

### Arbico Organics

We partner with Arbico Organics, who market our agricultural adjuvant called IFC through their direct e-commerce sales platform to their own organic farming customers.

## Capabilities Statement

- Liquid fertilizer and biochemical manufacturer and supplier.
- Industries we service:
  - Farming
  - Cleaning Services/Commercial Markets
  - Oil & Gas
  - Waste Management
  - Remediation
  - Agricultural
  - Manufacturing
  - Environmental Protection
- All products are 100% biodegradable.
- Almost all are made from all-natural and organic materials.

## Core Capacities

- |                          |  |
|--------------------------|--|
| • Remediation            | • Increased Petroleum Production           |
| • Crop Fertilizers       | • Plant-Based Surfactants                  |
| • Waste Management       | • Industrial Cleaning                      |
| • Plant & Soil Fertility | • Various Forms of Carbon & Trace Minerals |

## Differentiators

- Partnered with EPA, active on the NCP Product Schedule ("Products Available for Use During an Oil Spill").
- Certified USDA BioPreferred - bio-based fertilizers, pesticides, and industrial cleaners.
- Previously certified OMRI from 2008 to 2021.
- Producer of "Green" products.
- In business for over 50 years as a liquid fertility merchant.
