

Docent Study Hours Countable on VIC
(approved by the DCC October 8, 2024)

Provisional Docents may count up to 5 hours per week of research on PSAM artwork since they are beginning their research and are expected to do a great deal of study to prepare themselves to tour the collection. This is a perk for the provisional year only and ends at the end of the training year.

Actively Touring Docents may count up to 8 hours a month of research. Once the Docent has scheduled themselves for a tour they can begin accruing these study hours. Study hours may be accrued only while a Docent is actively touring (this includes all tours and Ask Me's).

Specialist Docents may count up to 15 hours for research related to their specific Specialist exhibition.
