SERVICES: Midstream Solutions

Midstream Services Solutions

Midstream – Services Solutions

WHAT WE ARE

PARTNERSHIP

WHO WE ARE

Our Profile is to be an integrator of Services and innovation, focused on solutions such as Midstream, Upstream and Downstream, in which it integrates solutions such as Procurement, Digitalization, first line of Support, Manpower, aligned with your business etc. Our Mission is to be the best partner in customer development, integrating service solutions with excellence and innovation, while Our Vision is to be an Angolan company of reference in Midstream solutions, in the Oil & Gas sector recognized for the excellence of our professionals and results achieved.

AREAS OF EXPERTISE

Oil & Gás

Mining

STRATEGIC PARTNERSHIP

A team specialized in the delivery of onshore and offshore organizational technical product or material and Man power of international and Angolan origin, based in Luanda since its foundation in 2019. Our mission is to offer comprehensive solutions, ranging from organizational transformations to the implementation of quality services, with a team of national and international experts.

RESOURCES FOR THE PROJECTS

Human Capital

- Project Managers
- Technical Experts
- Junior and Senior Staff
- Executive

Solutions

- Marine Technologies
- Vessel and Facility Identification & Management
- ManPower & First Line Support
- Procurement & Training Support
- Maintenance and Prevention
- Other Marine Services

Strategies

- Turnkey Solutions.
- To be a reference in the Angolan market in the Oil and Gas sector.
- International partnership for the first line of support for large projects in the maritime sector.
- Manpower, and Training.

Structures

- International Certification and Partnerships ISO 9001 standard and ANPG Certification
- Procurment
- Manpower and Training
- Project Management - PMP

1 - MIDSTREAM OTHER SOLUTIONS

Midstream Services

Maya Energies is a company dedicated to the Oil and Gas sector with comprehensive solutions in comprehensive solutions such as Manpower, Marine Technologies, Midstream Solution, Project Management, Procurement, having at the disposal of the market a variety of Services and products, designed according to the specificity and need of your business.

OUR SPECIALTIES:

Studies and solutions for offshore projects in partnership with international experts and companies.

Management and supply of offshore material and allocation of qualified technicians for first-line support. (Manpower)

Marine Technologies

Project Management based on best practices with strong marine technologies and offshore standards

Training for the qualification of technicians or any other user.

Procurement

SERVICES

- 1 - Shipping, Trading, Procurement, project management, Manpower, training Support
- 2 - Cargo Transport, Including Oil and its Derivatives.
- 3 - Oil and Gas Crewing & Manpower O&M Services.
- 4 - Corrosion Management Solutions & Asset Integrity Services.
- 5 - Supply of Oil & Gas Chemical Products.
- 6 - Asset Integrity Services.
- 7 - Oil and Gas Crewing, Labour Services and O&M (Operations and Maintenance).
- 8 - Provider of STS (Ship to Ship) Equipment Services.
- 9 – Resume Other Services

Midstream Services

Maya Energies – Shipping, Trading, Procurement, project management, Manpower, & training Support.

PROCUREMENT: As an outsourcing company, Maya Energies offers sourcing and procurement solutions for a wide variety of items, including those that are difficult to find with our suppliers in the national and international market like USA, Germany, France, etc.

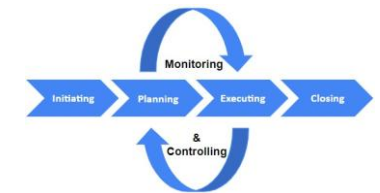

PROJECT MANAGEMENT: Marine and Offshore, For floating offshore assets we provide comprehensive project management services, overseeing engineering, procurement, construction, upgrade, and offshore installation to ensure smooth project execution.

We will provide project management to consider factors such as vessel conversion or construction, integration of production facilities, installation of mooring systems, and implementation of safety measures. Additionally, we will provide management of the required collaboration among various stakeholders, including FPSO/FSO providers, engineering contractors, shipyards, equipment suppliers, and regulatory authorities Including benefits Coordination, Expert Oversight, Efficient Resource Utilization, Clear Communication, Risk Management.

SERVICES**

Midstream – Services Solutions

Cargo Transport, Including Oil and its Derivatives

Cargo Transport, Including Oil and its Derivatives :

We provide Reliable cargo transport solutions, specializing in the movement of oil, petroleum products and other energy commodities.

Midstream Services

Oil and Gas Crewing & Manpower O&M Services

Oil and Gas Crewing & Manpower O&M Services :

We provide skilled crewing and manpower solutions for operations and maintenance in the oil and gas industry, ensuring seamless workforce deployment.

Corrosion Management Solutions & Asset Integrity Services

Corrosion Management Solutions & Asset Integrity Services:

Our corrosion control and asset integrity services help extend the lifespan of critical infrastructure and ensure regulatory compliance.

Supply of Oil & Gas Chemical Products

Supply of Oil & Gas Chemical Products :

We supply high-quality chemical products tailored for various oil and gas applications, ensuring operational efficiency and safety.

ASSET INTEGRITY SERVICES

ASSET INTEGRITY SERVICES:

We provide comprehensive Asset Integrity Services designed to ensure the safe, efficient, and reliable operation of industrial assets throughout their lifecycle, with a focus on digital integration, risk based management, and lifecycle traceability.

Oil and Gas Crewing, Labour Services and O&M (Operations and Maintenance)

Oil and Gas Crewing, Labour Services and O&M (Operations and Maintenance):

We provide Oil and Gas Crewing, Labor Services, and full Operation & Maintenance (O&M) solutions by supplying skilled personnel, managing workforce development, and delivering end-to end operational support for onshore and offshore facilities.

Provider of STS (Ship to Ship) Equipment Services :

We provide high Quality ship to ship transfer to ensure safe efficient and compliant cargo operations between vessel. our solution are tailored to meet international standard, minimizing downtime and maximizing operation reliability.

RESUME OTHER SERVICES

- ✓ Ship Agency Services
- ✓ Cargo Vessel Handling
- ✓ Logistics & Warehousing
- ✓ Inland Transportation
- ✓ Ship Supply Services
- ✓ Crewing
- ✓ Ship Chandler
- ✓ Diving Solutions
- ✓ Marine Products Distribution & Sales
- ✓ Freight Forwarding
- ✓ Custom clearance
- ✓ Visit Visas for On-Board Crew & Passengers
- ✓ Crew & Passenger Transportation

2 - MARINE TECHNOLOGIES SOLUTIONS

Marine Technology Solutions: Optimizing Offshore Facilities and Operations for Safety and Efficiency.

At Maya Energies, our Marine Technology Solutions team offers a comprehensive range of services designed to optimize offshore operations. With our extensive industry experience and cutting-edge technology, we provide strategic project management, engineering support, and technical expertise to help our Clients maximize efficiency and safety in their offshore energy projects.

- 1 - Comprehensive Project Management:
- 2 - Strategic Asset Management:
- 3 - Local Capacity Building:

SERVICES

- 1 – Vessel and Facility Identification & Management
- 5 – Chartering and Management of Vessels, Provision of Maritime Services
- 2 – Project Managements
- 4 – Project Documentations
- 3 – Full Project Phase Support
- 5 – Value Enhancement & Risk Reduction

Vessel and Facility Identification & Management

At Maya Energies, our vessel and facility identification services ensure the most suitable vessels, facilities, and yards are used for our clients' projects. With our wide industry knowledge and rigorous evaluation processes, we make sure that each selection aligns perfectly with project specifications and requirements, improving operational efficiency and reducing risks.

IDENTIFICATION SERVICES

- Vessel and Facility Selection
- Surveys and Inspections
- Technical and Commercial Evaluations
- Contracting and Negotiation Support
- Regulatory Compliance

BENEFITS

- Optimal Asset Utilization
- Cost Efficiency
- Risk Mitigation
- Improved Project Outcomes

Note: Maya Energies' commitment to excellence in Vessel and Facility Identification ensures that every project benefits from our expertise, delivering value and reliability in the most demanding offshore environments.

Chartering and Management of Vessels, Provision of Maritime Services

Chartering and Management of Vessels, Provision of Maritime Services :

We offer vessel chartering, fleet management, and a broad range of maritime support services to ensure efficient offshore and shipping operations.

Project Managements

Project Management for Marine and Offshore

For floating offshore assets we provide comprehensive project management services, overseeing engineering, procurement, construction, upgrade, and offshore installation to ensure smooth project execution.

We will provide project management to consider factors such as vessel conversion or construction, integration of production facilities, installation of mooring systems, and implementation of safety measures. Additionally, we will provide management of the required collaboration among various stakeholders, including FPSO/FSO providers, engineering contractors, shipyards, equipment suppliers, and regulatory authorities.

SERVICES AVAILABLE

- Engineering and Design
- Procurement Management
- Drydocking and Repair Management
- Installation and Commissioning
- Schedule and Cost Control

BENEFITS

- Coordination
- Expert Oversight
- Efficient Resource Utilization
- Clear Communication
- Risk Management

Note: Maya Energies' Project Management services deliver for every aspect of project execution, ensuring our clients reach their objectives with confidence.

Project Documentations

Project Documentation, Maya Energies will develop critical project documentation to ensure transparency, clarity, and project execution predictability for the tender phase of your project.

For the project execution phase, we develop key technical documentation and review of the contractor's documentation. Typically, this includes the types of documents listed below.

SERVICES AVAILABLE

- Project Descriptions
- Contractual Terms and Conditions
- Submission Guidelines
- Tender Evaluation Criteria
- Design Basis
- Scope of Work
- Specifications
- Project Quality Plans
- HSES Management Documentation
- Cost Estimates
- Engineering Reports and Drawings
- HAZID and HAZOP Actions Registers
- Master Document Register
- Main Equipment Lists
- Project Schedules
- Project Progress Reports

Note: Maya Energies' Project Documentation services are designed to provide a reliable framework for project success, ensuring that all aspects of the project are well-documented, transparent, and compliant with the highest industry standards.

Full Project Phase Support

All Project Phases

Maya Energies delivers full project management and support services throughout all project phases, including vessel/concept identification, FEED, commercial and technical evaluations, development of ITT packages, tender evaluations, detailed design, construction/upgrades, commissioning, and offshore installation/marine operations.

SERVICES AVAILABLE

- Concept Design Development
- Commercial and Technical Evaluation
- ITT Packages and Tender Evaluations
- Main Contracts Management
- Detail Design and Procurement
- Offshore Installation Oversight

Note: Maya Energies Full Project Phase Support ensures that every aspect of your project is managed with the highest level of expertise and dedication, delivering performance and value at each stage.

Value Enhancement & Risk Reduction

Enhancing Value and Reducing Risks

Using the latest designs and execution plans, we enhance project value and reduce risks, customizing our tried and tested strategies to specific vessels and facilities.

Projects are inherently complex and involve various risks, including technical, operational, and financial risks, hence effective risk management is critical to minimize potential delays and cost overruns.

Maya Energies will conduct a thorough formal risk assessment including HAZIDs and HAZOPs, develop mitigation strategies and mitigation actions registers, and establish contingency plans to address potential challenges.

SERVICES AVAILABLE

- Innovative Design Solutions
- Project Execution Plans
- Contracting Strategies
- Risk Assessment and Mitigation
- Cost Optimization
- Performance Monitoring

Note: Maya Energies value enhancement & risk reduction services deliver improved project outcomes by combining the latest solutions with careful risk management, ensuring your projects are both profitable and secure.

Full Major Shipyard Services including:

- Engineering, Procurement, New Vessel Construction, Major
- Conversions, Upgrades & Overhauls
- Small Repairs, Fabrication, Inspections and Logistics Support
- Post Shipyard and Onsite(In-Situ) Repairs and Modifications
- Vessel Lay-Up & Anchorage Facilities and Management
- Vessel Import, Export, and Port Authority Assistance
- Vessel Stacking and Decommissioning Facilities
- Stacked Vessel Reactivation and Commissioning

Note: Complete Auditing and Inspection Services including Class Surveys, Diving Services, Rope Access, UWILD, NDT, Load Tests, Drops Surveys, Lifting Gear Inspections, etc.
