Cardio Support

____\$80.00

A trademarked blend of natural ingredients, including bergamot phytosome extract to support HDL levels, curcumin (as Meriva) to support liver function, Co-Q10, berberine HCL, green tea phytosome, quercetin phytosome, resveratrol, lycopene, garlic, and beta sitosterol all of which powerfully support healthy cardiovascular function. It also features a highly concentrated organic Red Yeast Rice extract, a natural antioxidant that reduces the impact of stress on the cells. This specific type of Red Yeast Rice is carefully produced to avoid the presence of citrinin, a potential by-product of the fermentation process that is extremely toxic. This powerhouse formula helps naturally support healthy cholesterol levels while promoting overall cardiovascular health.

Cholesterol Balancer

____\$49.00

This unique, potent, and effective formula is excellent for supporting normal, healthy cholesterol levels.

Organic concentrated red yeast rice along with supportive nutrients makes this formula extremely effective.

D Limonene

____\$24.00

This all-natural formula supports healthy stomach function and is beneficial for those with occasional heartburn and reflux. Unlike many acid-blocking medications and supplements, it does not shut down or buffer the production of stomach acid. Having healthy levels of stomach acid plays a vital role in digestion and nutrient absorption; without it, the stomach cannot begin the digestion process. The active ingredient has the FDA's highest safety rating (GRAS), ensuring this product is one you can trust. Easy to swallow, and convenient to have on hand when symptoms start, calming the uncomfortable sensation in the chest and throat. The main ingredient is extracted from the peels of oranges.

Elite Whey Wellness Chocolate Protein

___\$38.00

Whey protein is among the most valuable kinds of protein available. It scores very well in all measures of protein value, such as PER (Protein Efficiency Ratio) 3.2, BV (Biological Value) 100, and PDCAAS (Protein Digestibility Corrected Amino Acid Score) 1.0. The PDCAAS is the most relevant measure of the quality of proteins for humans and is the official rating system used by the World Health Organization. The score of 1.0 is the highest possible rating. Whey protein contains all the essential amino acids in biologically significant amounts and is simply one of the most complete sources of proteins and amino acids in the marketplace. It does not contain any synthetic hormones such as rBGH. The whey protein concentrate and isolate used in this

formula are produced through an ion-exchanged, ultra-filtration process that yields the highest level of protein and amino acids while preserving all the naturally occurring, immune-enhancing, and muscle-nourishing bioactive.
