

CORPORATE PARTNERSHIP PROGRAMME

[ABOUT US]

Wear Rivers Trust is a local charity that improves people's lives through its work on the River Wear from Killhope in Weardale to where it meets the sea in Sunderland, and all its tributaries throughout the catchment

CORPORATE BENEFITS:

Mentor company through the 'Investors in the Environment' accreditation.

Demonstration and Enhancement of Environment & Corporate Social Responsibility policies.

Improved visibility of environmental impact and availability of a mitigation action plan.

Reduced business risk from inadvertent pollution.

Active river improvement team building days.

Changing or strengthening a brand image.

All proceeds from the scheme go towards the charitable objectives of the Trust, conserving, enhancing and restoring the river and its catchment.

[OVERVIEW]

The Trust was founded in 2008 and benefits the people who live, work and visit the catchment of the River Wear. We also indirectly benefit the people who live in other catchments across the UK, as we are part of The Rivers Trust which has 43 other Rivers Trusts across the country. As a small charity of 8 staff based in Bishop Auckland, we work with hundreds of local people of all ages through volunteering opportunities which enhance their lives.

GET CERTIFIED

'Investors in the Environment'

There are three Investors in the Environment (iie) accreditation levels that your organization can work towards starting with Bronze and aiming towards Green. Meaning that you are guided through the first steps of environmental improvement right the way through to becoming a more environmentally sustainable business.
