HISTORY: write YOUR story...

Write a short descriptive paragraph to help those reading it get to know more about you.

WHAT IS A PARAGRAPH?

A paragraph is a single piece of writing that usually deals with a single theme – in this case YOU!

IMPORTANT: Plan your thoughts before you begin:

1. Introduction - your name and age
2. Mention:
   a. where you live
   b. your home and family
   c. things that you like to do
   d. think about what makes you, YOU?
3. End the piece strongly – perhaps about a wish or a dream you have for your future?

FINDING IT HARD? – then why not try the following:

- Write up to ten sentences about yourself that describe you and your life – these sentences will then help you to form a paragraph.
- Write it as you – in the first person.

HAVE FUN!
