Mind Body & Soul Retreat

BEING LIMITLESS

Husna Mohideen

I had the wonderful opportunity to attend the 2 day retreat in New York. The retreat was nothing short of an amazing experience of getting to know yourself & the limitless possibilities. The programs were thoughtfully designed and well balanced for maximum exposure to learn and easily implement into our daily lives. I went into the retreat without knowing what to expect but I left the retreat with my heart and soul full. I would like to extend my heartfelt appreciation to Surbhi and Dr Anil.

Anita Karwal, IAS

Two days of brilliant work on getting to know the connection between the mind, matter and self. Very insightful sessions on emotional freedom, simplified meditation, forgiveness and zero limits, etc. The icing on the cake were the hypnotherapy sessions conducted in a masterly fashion. The delicious food was carefully planned, designed, curated and cooked. I realised the vast potential of working with green vegetables. All in all it was full "Paisa wasool" and a much needed starter for my own evolution.

Ranjana Arora

The Retreat was very therapeutic n informative, teaching us some techniques to combat stress, depression n long held traumas. The substance n presentation was simple and easy to follow, in spite of the depth n complexities of the subjects taken. Overall very productive n good learning experience. The food served was delicious too, by way of variety, nourishment n presentable.

The design of the retreat showed thought, concern and warmth. I woke up without pain in my knees and back for the first time and marvelled at it. A little unbelievable that it will not come back.
