Husna Mohideen

Entépreneur, IT prof , New York

I had the wonderful opportunity to attend the 2 day retreat in New York. The retreat was nothing short of an amazing experience of getting to know yourself & the limitless possibilities. The programs were thoughtfully designed and well balanced for maximum exposure to learn and easily implement into our daily lives. I went into the retreat without knowing what to expect but I left the retreat with my heart and soul full. I would like to extend my heartfelt appreciation to Surbhi and Dr Anil.

Anita Karwal, IAS
Education CBSE chair person
Gandhinagar

Two days of brilliant work on getting to know the connection between the mind, matter and self. Very insightful sessions on emotional freedom, simplified meditation, forgiveness and zero limits, etc. The icing on the cake were the hypnotherapy sessions conducted in a masterly fashion. The delicious food was carefully planned, designed, curated and cooked. I realised the vast potential of working with green vegetables. All in all it was full "Paisa wasool" and a much needed starter for my own evolution.
