Alta California, Touchstone of Architectural Heritage and Native Culture, and forthcoming Premiere Edition, is a story of the mission trails 650-miles long, on El Camino Real 'Spanish Mission Chain' of California. In this latest Explorer edition and series on California's historical roots, the conquest to discovery during the dramatic 18th & 19th centuries, made a rapid change inside the Golden State!

This new exciting edition recalls the historical impact of the Spanish, Mexican, and American periods and Indigenous tribal heritage, the impact and resiliency encountered within traditional Native California culture. Planned as a two-volumes-in-one edition of the Past and Present, vintage to current landscapes, hardcover book: Alta California brings to life familiar places to visit. The current manuscript near completion, includes the book's forthcoming full-color section, 180-page manuscript and descriptions of California historical sites and background stories. The premiere edition will be available September, 2026, through Ingram Content Group.
