

# 5 Important Tips FOR FLATTERING PHOTOS

Welcome to BRM Productions!

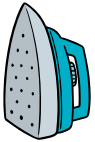

Thank you for choosing us for your photography needs. We're excited to capture your moments and want to ensure you get the most flattering photos. Here's a quick guide to help you prepare for your shoot:

## 1 Choose Your Outfit Wisely:

- **Go for Solid Colors:** They photograph well and keep the focus on you. Small plaids and heavy patterns can be distracting on screens.
- **Shirts and Tops:** Avoid button-down shirts unless paired with a tie or sweater. It helps in maintaining a neat appearance.

## 2 Clothing Preparation:

- **Iron and Clean:** Please make sure your clothes are ironed and clean. Remember, Photoshop manipulation for clothing starts at \$25 per photo.

## 3 Comfort is Key:

- **Personal Touches:** Feel free to bring along anything (or anyone) that helps you feel at ease – be it music, a friend, or a personal item.

## 4 Makeup and Grooming Tips:

- **Blemishes:** A little foundation can cover any pimples or blemishes.
- **Even Skin Tone:** Ensure your face foundation matches your neck when doing your own makeup.
- **Grooming:** Trim any unwanted hair (nose, ear, eyebrows, etc.) for a neat look.
- **Moisturize:** Hydrated skin looks best on camera, so don't forget to moisturize. Dry skin shows on camera!

## 5 Bring Your Best Self:

- **Positive Mindset:** Keep your thoughts cheerful. A positive spirit truly shines through your eyes and smile.
- **Be Yourself:** What we capture is what you portray. Photoshop is available but remember, manipulation starts at \$25 per photo.

We're here to make this an enjoyable and memorable experience for you. If you have any questions or special requests, please don't hesitate to reach out.

Looking forward to creating beautiful photographs with you!
