What I Say To Every Couple

Hire a photographer whose work and storytelling you adore but most importantly than that, hire a photographer you like. You should aim to work a photographer who you'll see as a friend on your wedding day, not just another vendor. If you can do that, good things will happen. You will have fun, be relaxed, you won't be second guessing your photographer's decisions, you'll trust them and encourage them to take risks and you'll be more inclined to reveal the real you. My name's Meg and I'm the primary shooter and face behind the emails of Pipi & Palm, a wedding photography & videography biz based out of Casuarina, on the stunning Tweed Coast. I love nothing more than watching two people celebrate their life together, surrounded by their nearest and dearest.

On the day you'll find me jumping for joy at a perfect sunset, touching up a bridesmaids lippy, coordinating the family making sure Aunt Sue isn't getting in the way too much, fluffing a wedding dress, straightening a tie, sobbing during the speeches (they get me every dang time!), and hunting down those rare special moments that make each wedding unique. If you're about to say I do and want a new friend and wedding photographer in one, give me a shout. Can't wait to capture all those memories you are about to make. To get in touch with Pipi & Palm, fill in the enquiry form or send her an email directly.

How good are weddings.

They've got it all. Laughter, family, champagne, snuggles, public displays of emotion, weird dance moves, happy tears, pretty flowers, special outfits, family heirlooms, delicious feasting, everything. And I am the lucky one that gets to tag along and capture all this goodness and save these amazing memories for you to keep for life.

Favourite Style

We would say that we don't have a favourite style however we relish in the ability to create modern and uniquely dreamy rustic, boho, feminine wedding services and events. Our team will work with you utilising your individual colour pallet to ensure that we can effortlessly ensure that your entire event compliments your chosen style, colour scheme and uniquely chosen venue. Deciding on fresh or preserved and dry (everlasting) Florals will have an impact on your chosen theme. I would have to say dreamy roses and grey green foliage has to be my personal go to for adding texture, fragrance and atmosphere as they can transform any space adding life and colour. Our Passion is about creating that memorable Forever Moment an atmosphere that will be in your thoughts and dreams long into your future years.

The Cake That Ate Paris

From her phenomenal baking skills and eye for detail, to her friendly down-to-earth nature and genuine passion for her business, Bree pours her energy and flair for design into every cake she creates. Trained as a chef from an early age, she knew from the very start that all things sweet and delicious was where her heart lay. Working as a pastry chef on the Gold Coast, Bree slowly built a loyal following of clients with her tasty creations before launching The Cake That Ate Paris as a full time business. From humble beginnings at the local weekend markets selling an array of cake pops, cupcakes and sweet biscuits, Bree has quickly grown to become known as one of the most popular cake designers on the Queensland coast. Growing up in the small beachside town of Wallabi Point on the NSW mid north coast, Bree now resides in Palm Beach with her fiancé Matt where she's excitedly planning her upcoming wedding in between creating delicious works of art for brides and grooms from Brisbane to Byron Bay.

MUSIC

I want to let you in on a little secret - I love true love! I know, I know, it sounds all very cliché for a wedding musician but it's true! I'm often hiding behind the microphone wiping a tear from my eye. The highlight of the day is always the moment eyes first meet between the couple - the emotion and excitement is incomparable. That moment is everything and one that I love to be involved with, by setting the mood with the perfect song to walk the aisle. When I'm not holding back tears, I work closely with the couple and their guests to set the atmosphere and share that love and excitement.

It's not all mushy love stuff though, I am an entertainer meaning having fun is the name of the game. As your acoustic musician who doubles as a DJ into the reception, I'll be sure to help you create the perfect wedding that you have always dreamed of.

A story which started with an avocado working farm overlooking Mt Warning, an old tin packing shed and a vision forged in the red earth of our home - The Tweed Valley.

Fueled by the love of this land, we believe in making time for the good things life has to offer: a morning surf and a cool, crisp beer to finish off the day.

We figured you can't have a beautiful place without a fresh local beer, and you can't have a great local beer without great people.

So here, in this special place, we come together. By collaborating with local suppliers, we celebrate the best produce Australia has to offer, and at the same time we're able to give back to the community. We believe in low impact brewing, by packaging our beers as minimally as possible and distributing locally. Even our spent grain ends up as breakfast for the much-loved pet pigs down the road. When we learn something new about how to further reduce our footprint, we act on it, happily. Formerly known as Red Earth Brewery but now as Earth Beer Company, our aim is to bring together those from all walks of life with a shared love of quality beer and the land we are lucky enough to brew it on.
