

DAY BREAK BY LIVING BRIGHTLY

From creation to installation!

WHO ARE WE

Living Brightly was founded in 2021 by a former financial services consultant with 21 years in the industry. The inspiration for the company came from the realization that lighting is an important aspect in everyone's life with respect to how it affects moods! After all light is the main source of energy for all living organisms!

Living Brightly, unique luxury lighting! We are dedicated to providing works of art created exquisitely by talented, lighting designers crafting mood boosting lighting through thoughtful innovation. Our mission is to create and construct thoughtfully curated lighting designs that create the perfect light in life. As a woman owned, U.S. based and manufactured product, we aim to provide you a quality piece for years to come with our uniquely crafted, art inspired, handmade lighting!

WHAT DO WE DO

Living Brightly is a contemporary lighting company that designs hardwired fixtures that are finished and assembled to order from our partner, Mudshark Studios, American based manufacturing facility in Portland, Oregon. We are proudly American made by American artisans.

Day Break is our premier line. Our inspiration comes from the sunny upbeat vibes of the Florida sunshine in combination with the bright, airy, carefreeness of my two beautiful daughters, Kennedy and Alanna. Combining light with joy into our designs with a dedication to quality, American craftsmanship sets Living Brightly apart from others.
