WHY CHOOSE UFOLD FOR DOORS?

YOUR SPACE. YOUR STYLE. BUILT TO LAST!

MAXIMUM HURRICANE PROTECTION

Engineered for extreme conditions.

These doors meet or exceed Miami-Dade and Florida Building Code standards, with reinforced frames, multi-point locking systems, and impact-resistant laminated glass to withstand flying debris, pressure changes, and sustained wind speeds of 150+ mph.

ENERGY EFFICIENCY

Year-round comfort, lower energy bills in all climates.

High-performance glazing and thermal breaks help reduce solar heat gain during summer and retain warmth in cooler months. This minimizes HVAC usage and leads to noticeable savings on energy bills — even during extreme heatwaves.

ELEGANCE MEETS ENDURANCE! STYLE BUILT TO WITHSTAND THE STORM!

Transform your home with hurricane-rated bifold doors that combine sleek design, uncompromising safety, and customizable luxury. Don't settle for standard - open your world to beauty and resilience. **Call to schedule a complimentary design consultation.**

PREMIUM MATERIALS AND CRAFTSMANSHIP

Style that lasts.

Top-tier bifold systems use marine-grade aluminum, stainless steel hardware, and fade-resistant finishes to ensure long-term beauty and performance in coastal environments. They're built to endure salt, sun, and storms without warping or corrosion.
