

## It's time to Level Up!

Earning extra points is easier than ever with our Membership Tiers. The higher up the tiers you go, the more points you earn, the more points you have, the more points you can redeem!

Status	Points Needed	Multiplier
 <b>Bronze</b>	0 - 7,500	1×
 <b>Silver</b>	7.5K - 15K	1.25×
 <b>Gold</b>	15K - 25K	1.5×
 <b>Platinum</b>	>25,000	2×

## How is your Status Determined?

Your Status is determined based on your Total Member points and not based on your current points.

Your current points will increase and decrease when you earn and redeem points, but your total member points are an accumulation of all your points earned and will not be reduced when you redeem points.

As you earn and accumulate enough points (as shown above) and cross each tier points needed, your membership status will change automatically.

Your Total points are reset to 0 on January 1st of every year. The status you have on that day will hold for one year until the following January 1st. Your current points do not get reset each year, only your total points.

Since your total points reset to 0, you must build back up your total points and membership status for January 1st of the following year so your membership status can be determined on that day once again.
