Recreation

Painted Exercise Room - thank you to Kathleen Tatarinchik, Jim Hennessey, Mike Mathis, Lacy Paulussen, Jackie Davis, and maintenance. We will also be working on restoring the horseshoe pits. Your continued support is necessary to keep the Village in tip-top shape. Let's not forget that our home values are affected by the Clubhouse and the rest of the amenities, as well as your own property.

Long-Range Planning

John Pazoga – chair of the ad hoc committee for the circle islands, gave his report from the ride with the firemen around the circles. A circle-by-circle description indicated several circles that will need to have some trees removed and others that need trees trimmed. The firemen requested that all trees be trimmed to a height of 13 feet from the road. Planning is continuing on how next to proceed.

Maintenance

- Prepared walls in Exercise Room for painting by the Recreation Committee.
- Added crushed rock alongside roads
- Trimmed the speed bump at the front gate that was made too high when blacktopped.
- Reorganized Compound to add 10 new spaces for utility trailers along center fence.
