

# Milk Matters

A presentation on  
dairy farms, food and  
all things bovine.

Journalist and dairymaid Lucille Benoit speaks about the current crisis for small dairy farms and the importance of public awareness, consumer action and constructive debate for the survival of dairy farms, cows and sustainable local food production.

## Presentation Highlights

The contribution of the cow to man's prosperity.  
Milk and honey and the benefits to reduce allergies.

If there is too much milk, how come I can't find any cows nearby?

A1 and A2 cows and the link to lactose intolerance  
Feed America first, can we separate domestic and international supplies?

California – land of almond milk, wildfire and drought.

Industrial food production – Walmart cows.  
Loss of local dairy processing plants.

Benoit is the author of the novel, *Come, Bos*, the story of one small farm's struggle to survive
