Folds flat for easy storage'

Anodised products also cool quickly so cakes can be removed from pans in a faster time.

Instructions:

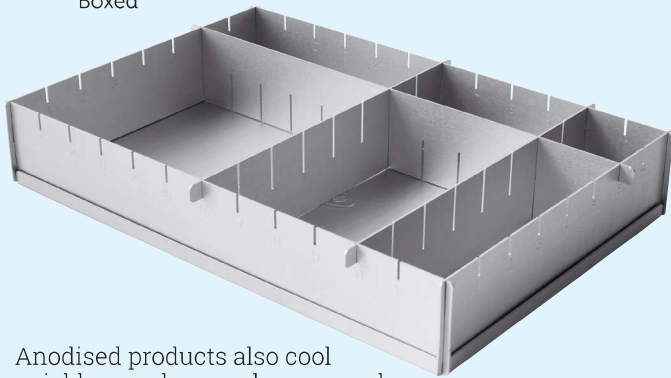

1. Insert the outer walls together. These are the panels without tabs at the side, insert the short walls first with grooves pointing upwards.
2. Then insert the longer walls with the grooves pointing downwards.
3. Once all four outer walls are assembled, insert the inner dividers. These will have the extra tabs at each ends of each panel.
4. Make sure all panels are securely slotted together before use.

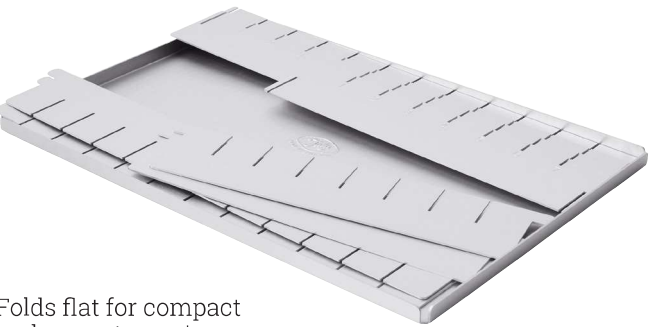

NEW
