

5678 Dance Company 2020

June-July

Nationals: These are an optional, out of state event for our Professional Company Teams (usually at the end of June/early July). Nationals are intense, but the most rewarding and fun experience! Those who compete will have all new performances that they will learn over the month of May.

Summer Camps: There are several camp options. Company, technique, Broadway, tumbling, and baby camps. Attached is the list with dates and times.

Professional Company Teams: These teams will learn choreography over the summer and perform in six (6) competitions between January and May. This does not include the two (2) conventions we will attend between September and November. Tryouts for these teams will be June 12th. The week of June 8th, students will learn choreography and perform for an outside panel of judges to determine the team they will be on for the following season.

Recreational Company Teams: These teams are only available to those competing for their first year. These teams will learn choreography in January and February and will compete in two (2) competitions between March and April. These teams will not go to any conventions. There are no tryouts for these teams.

August-December

Weekly Classes: Classes will run normally throughout the week, with the exception of learning choreography starting in September. Monthly tuition will still be due, costume fees due in September, pictures and recital fees in October.

Recital: We will have a winter performance in December much like a recital. When everyone returns to class in January, we will automatically have competitions teams starting on dances. Professional teams will start competing in January and recreational teams will begin choreography.

January-May

Competitions: This is competition season! Broken down at the top, depending on your team is how often you will compete. Attached is a contract with pricing information for each team option.
