

Tax Document Checklist

I must obtain copies of all pertinent tax documents before I can begin preparation of your returns. Please understand that I am required by all tax authorities to verify identity of all taxpayers and dependents for claiming certain deductions and credits – therefore, I must ask for personal identifying information (e.g. driver's licenses, Social Security cards). This is not an all-inclusive list, and not all documents listed here may apply to you – but it will save you time, and help ensure you receive all the tax benefits, credits and deductions you are allowed. As you receive important tax documents in January 2025 or before, file them with this checklist.
