

May 14, 2020

The Honorable Roger Wicker, Chairman  
The Honorable Maria Cantwell, Ranking Member  
Committee on Commerce, Science and Transportation  
United States Senate  
Washington, D.C. 20510

The Honorable Eddie Bernice Johnson, Chair  
The Honorable Frank Lucas, Ranking Member  
Committee on Science, Space and Technology  
U.S. House of Representatives  
Washington, D.C. 20515

**Please support passage of the Advanced Technological Manufacturing Act (S. 3704)**

Dear Chairman Wicker, Ranking Member Cantwell, Chairwoman Johnson and Ranking Member Lucas:

As Congress continues to work on a bipartisan basis to respond to the effects of the COVID 19 pandemic on the nation's economy and workforce, we respectfully urge you co-sponsor and support enactment of the Advanced Technological Manufacturing Act, to reauthorize and provide increased funding for the National Science Foundation's (NSF's) Advanced Technological Education (ATE) program, which is of great importance to student success at community and technical colleges.

With an emphasis on two-year colleges, the ATE program focuses on education of technicians for high-technology fields that drive the nation's economy. The program involves partnerships between academic institutions (middle schools, high schools, and institutions of higher education) and industry to promote improvement in the education of science and engineering technicians. The ATE program supports curriculum development; professional development of college faculty and secondary school teachers; career pathways; and other activities.

The ATE program has not been reauthorized in 28 years. In addition to the need to update the statute in light of changes in education and career opportunities in connection with science, technology, engineering and mathematics (STEM) education, the ATE funding authorization should be increased.

We support ATE reauthorization and a budget increase from \$75 million to \$150 million annually as a component of a COVID 19 response stimulus package. This would be accomplished by passing the Advanced Technological Manufacturing Act (S. 3704). The additional funding will promote a post-pandemic economic recovery by bringing research and development, workforce education and industry into new partnerships that foster equitable economic development and a workforce prepared to contribute to the growth of advanced technological sectors.

Thank you for your consideration.

Sincerely,

Dr. Glenn DuBois, Chancellor
