

1 Week before the Move

- Verify your move time and date with your moving company. As a New City client, you will receive a confirmation call 2-3 days before your move to confirm that all your information is accurate and to answer any questions.
- Give your moving company any new telephone or cell numbers so they can contact you on moving day.
- Pack all items found in furniture drawers in boxes to ensure that your furniture and items are not damaged during the move.
- Notify magazines, newspapers, and other subscription services of your new address.
- Be sure to let your family and friends know about your new address and new number via email or by mail.
