

Using Bitqueen

1 Get SDK / API

Send an email to support@bitqueen.com to get our SDK and API bundle plus an appID and control panel login

1

2 Set up app

Add the SDK or API to your iOS or Android app in just 5 minutes

2

3 Data Policy

Choose the data partners (Google, Flurry etc) you use in our control panel. This generates your Data Policy

3

4 Test your app

Build and run your app and test the opt-in, data policy page and the opt-out.

4

5 Audit trail

Check the opt-in audit trail in your control panel. You are now one step closer to GDPR compliance!
