- More Information-- Coming soon!

### October 17

- ATE-I Fall Conference
- Details to come soon!

## ATE 2025 ANNUAL MEETING

New Orleans, Louisiana

## PRESIDENT'S MESSAGE

In today's "ever changing world," teacher education programs and P-12 districts/townships/school corporations need to collectively organize to collaboratively support our educators (preservice, newly licensed, and veteran) through morale building, meaningful and relevant professional development, research projects, and conferences. During our current teacher shortage, it remains imperative that teacher education organizations collaborate to support our teachers throughout our profession by advocating for increased resources, successful recruitment and retention efforts, and professional networking opportunities. If elected as ATE-I president, I will work to collaborate with higher education organizations, P-12 institutions, and other key community partners to successfully improve educational opportunities and performance across the state as well as nationally. Likewise, I will work with other state ATE's and national ATE to help meet the needs of the constituents across our state. Together we can provide professional growth opportunities and prepare the best teachers for our P-12 students and future leaders.

**Dr. Cathi Cornelius, ATE-I President, Tenured  
(Associate) Professor, Marian University**
