product information

natural simplicity

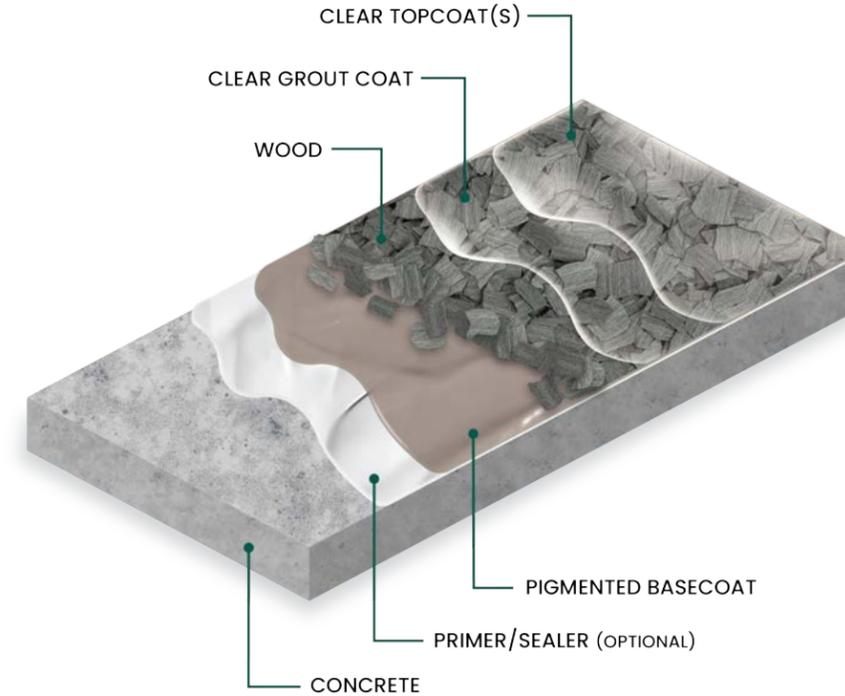

Manufactured from a range of premium-quality natural and engineered wood veneer species, WOOD flooring systems elevate the look of seamless flooring with the timeless appeal of natural wood grain.

hygienic and seamless protection

Resinous and high-performance flooring systems create seamless surfaces that are extremely durable and easy to maintain. The non-porous surface makes spills easy to clean and provides superior protection against the growth of mold and bacteria compared to tile and grout options.

design options

WOOD is available in 11 signature blends or 14 unique traditional and modern “species”. Use colors alone or mix and match to create new blends.

WOOD floor system illustration

For best results, a sanding coat is recommended prior to applying the final topcoat(s).

benefits of WOOD flooring systems

DURABLE

Resinous flooring systems provide superior chemical and abrasion resistance over pre-engineered floors.

DECORATIVE

WOOD enhances high-performance flooring by adding natural wood grain and texture to complement any environment.

FLEXIBLE

After years of use, efficiently revitalize your resinous floor by sanding the surface and applying a new topcoat.

SAFE

WOOD resinous flooring media provides an orange-peel texture that increases the slip-resistance and safety.

HYGIENIC

Resinous flooring systems are wax free and easy to upkeep and clean with just soap and water.

SEAMLESS

Resinous flooring creates a seamless, flowing surface that won't collect dirt, moisture, or germs.

RENEWABLE

After years of use, efficiently revitalize your resinous floor by sanding the surface and applying a new topcoat.
