Sound Mix / Audio Format: Silent (No Audio Track).

Color / Background Environment: Absolute Black Field Throughout.

Country of Origin & Language: United States | English (Text Cards).

Production Tools / Software Engine: Adobe & Keynote 2026.

TAGLINE:

Keep Calm and...Carrie On

LOGLINE:

Timed for the 50th anniversary of a horror masterpiece, this silent minimalist animation tracks an isolated graphic chair pushed to the brink of earthly rage, only for a timeline rewind to transfigure the architecture of exclusion into a sacred path of divine alignment.

Artwork Synopsis:

A protagonist chair attempting to integrate into a collective is repeatedly met with swift spatial rejection, enforced by vertical lines that partition the screen. This systemic alienation plunges the protagonist into a deep visual abyss, where it is subjected to a violent downpour of crimson texturing, serving as a direct thematic nod to cinema history.

Bio:

Skye Bailey is a professional Moving-Image Artist and Experimental Animator. Their contemporary practice focuses on a minimalist visual language where graphic elements serve as protagonists in silent, one-minute animations.

Bio: (continued)

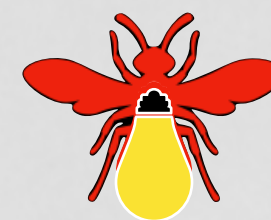

This dedicated exploration of digital simplicity and visual choreography has anchored their moving-image work, earning them the 2024 Big Idea Grant and the 2023 "Rookie of the Year" award in Motion Graphics from The Rookies.
