

Polyblend

CREATING MORE VALUE FOR YOU

COLOR MASTER BATCH

ADDITIVE COMPOUND

FILLER COMPOUND

BACKGROUND

Registered on 2018, **POLYBLEND COLOR** is located in Sainoi Nonthaburi in the country of Thailand. Our state of the art infrastructure and machinery ensures that we pull off accumulative production of 5,600 MT per annum. the company has expertise in the manufacture of color master batches, additives and fillers. **POLYBLEND COLOR** has been reaching new levels of excellence whilst creating more value for our customers.

PRODUCT & TECHNOLOGIES

Sighting the perfect fusion of innovation with experience, we are using one of the most proven technologies in the field such as **twin-screw extruders** for master batches and compound. For consistent pre-mixing of raw material, we deploy high speed mixers and pulverisers. Our command of the stated technologies prepares us to keep production at a high and efficient rate.

SUPREMACY AT QUALITY CONTROL

To ensure quality of the highest class in terms of color matching, we have installed an injection machine, to roll mill, blown film machine and a muffle furnace. Quality tops the priority of our list of aspirations. To provide optimum benefits to our customers we work in the direction that allows us to improve our high-grade master batches / compounding quality.

OUR PRODUCT

MASTER BATCHES

- White/Black Master Batch
- Color Master Batch
- Pearl Master Batch
- Engineering Plastic Master Batch
(NYLON, ABS, PET, PC, PPT, HIPS, DERLIN, PBT)
- Special Effect Food/Non Food Grade Master Batch
- ROHS Master Batch
- High Heat Stability Master Batch
- High Light Fastness Master Batch
- TPU/EVA Master Batch

ADDITIVE MASTER BATCHES

- Anti Static Master Batch
- Anti Slip Master Batch
- Anti Block Master Batch
- PPA Master Batch
- Biodegradable Master Batch
- Decicant Master Batch
- UV Master Batch
- Anti Oxidant Master Batch
- Anti Fox Master Batch
- Anti Scratch Master Batch
- Nucleating Master Batch
- Blowing Agent
- Flame Retardant Master Batch
