

IDENTIFY EXPLOIT NEUTRALIZE

IXN delivers innovative, outcome driven counterintelligence (CI) solutions, tailored to minimize risk and empower organizations to proactively identify, exploit, and neutralize threats, safeguarding your critical assets - people, information, and technology.

IXN PILLARS

TRAINING

Tailored Theory-to-Practice (T2P) training programs designed and led by seasoned CI experts. We deliver scenario-driven, practical courses that prepare professionals to safeguard people, information, and technology.

- CI, Insider Threat Awareness, Signature Reduction, and many other tailored security training solutions
- Scenario-Based Exercises for Executives and Staff
- Regulatory & Compliance Training (NISPOM, SEAD-3, ITAR, AML, etc.)
- Certification and accreditation training and certification exercise development/execution

CI SERVICES

IXN provides comprehensive counterintelligence services that strengthen compliance, protect organizations, and proactively identify threats.

- CI Policy & Program Establishment / Optimization
- Enhanced Employee Screening & Partner Vetting
- Due Diligence Assessments for Vendors, M&A, and Partnerships
- Fractional CI & Augmented FSO Support
- Counterintelligence-enabled Compliance & Investigations (AML & ITAR)
- Virtual Insider Threat Program (vINT)

TECHNOLOGY

IXN's 351x Platform is a SOC 2-compliant, patent-pending SaaS solution that integrates compliance and counterintelligence workflows. It enables organizations to move from reactive compliance to proactive risk management.

- Employee & FOCI Reporting Modules (NISPOM & SEAD-3 Compliance)
- Vulnerability Scoring for Organizations & Employees (CI-Informed)
- Case Management & Investigations Hub
- Training & Awareness Tracking with Automated Reporting
- Multi-Client Management for Fractional FSO Providers

THOUGHT LEADERSHIP

IXN extends its expertise to the broader security and compliance community, shaping proactive CI practices across government and industry.

- CI Press Podcast and Dispatch Patreon website and Discord community channel
- White Papers & Case Studies on Emerging Threats
- Conference Presentations & Keynote Speeches
- Customized CI Workshops for Senior Leaders
- Industry Benchmarking & Best Practices

WHY IXN

Proactive Defense: Shift from reactive to predictive security using CI principles.

Expertise: Our team of retired U.S. Department of Defense CI agents brings decades of global experience in full-spectrum counterintelligence operations and investigations, delivering unparalleled expertise to safeguard your organization's critical assets.

Measurable Impact: Minimize risks, cut costs, and enhance confidence.
