

# Why Use A Travel Agent?

## Top 3 Considerations:

### 1. Define Your Vacation

Are you comfortable using the Disney My Experience app? Great! If not, using a Travel Agent like myself allows you the freedom to choose the options you want without the hassle of figuring out how to attain them.

### 2. Plan Everything Ahead

Planning ahead is crucial to making your family vacation a success: I will help you choose the best time of year to go depending on your goals, check park availability, select dining reservations ahead and purchase any special event tickets before they sell out.

### 3. Use a Travel Agent

While the first thing that comes to mind for most is AAA Travel, using an independent agent is usually a better option; as we are able to be more personalized for you the client beyond just purchasing tickets.

## But...How Do You Compare to Other Agencies?

It's true, AAA Travel (for example) can help you get the tickets you need for the parks; however, where they lack is personalization. They have a limited selection for Disney Resorts as a start, and they also do not go the extra mile.

What I mean by that is helping you navigate the parks, know when the best time to park hop is, what time of day is the best to see the most animals on Kilimanjaro Safari's, which restaurant has the best picky eater friendly menu, and the list goes on!
