

LET'S TALK

Poop matters!

IMPORTANT REMINDERS

- SPRING HAS SPRUNG! It's that time of year again, and the grass and weeds are growing fast! Long grass = hidden poo and messier clean-ups! And remember, we can't get what we can't see. Please be sure you are maintaining a cut lawn to ensure a thorough and clean scoop. Satisfaction guarantee is null if not.
- Vacation season is upon us! Please let us know at least 2 weeks in advance if your dog(s) will not be at your home while you are away.
- Summer afternoons get HOT. And in an effort to beat the heat, our techs will be getting an earlier start. Depending on where you are on the route, this may or may not effect you.

THE SCOOP ON POOP

Maybe not your favorite topic, but healthy poop is often an indication of a healthy dog. Have you noticed a change in your dog's poop lately? If we do, we'll let you know right away! Check out this article from PreventiveVet.com to learn more about what your dog's poop may be telling you!

RAWHIDES. YES OR NO?

We see half chewed up rawhides all the time in yards. It's likely that if you ask your vet if rawhides chews are safe for your dog, they will tell you to keep your dog far away from them! Not only are they filled with toxic chemicals, but they can get lodged in their intestines which leads to invasive surgery, a hefty vet bill, and worst case scenario-death. Please check out this article from American Kennel Club to read more on the dangers of rawhides. <https://www.akc.org/expert-advice/health/are-rawhide-chews-dangerous-for-dogs/>

SET IT AND FORGET IT!

Did you know that we offer automatic payments?! Never worry about forgetting to pay your invoice again! People love the ease of automatic payments- most of us live busy lives and things slip our minds so easily. So if this is something you're interested in, just reach out and we will let you know how to get set up!
