

## *KINGDOM MESSAGES FOR THE SAINTS*

I was working in May 2022 about two weeks after concluding our weekly study for the year. I started prepping some tile that I wanted to paint for laser engraving. The first part of the preparation is to stack the tile and paint the edges. I was painting a set of white tiles black. In order to do this, I placed the tile stacks on cardboard and then waited the hour or two that it took for the paint to dry, and then I unstacked them and would flip them over and paint the front. That's when I realized after I spread them all out that there were a couple that had very striking images that amazed me. These tiles and images on them are those ones that I have since come to believe that they contain simple but amazing messages to us.

The first being that Yeshua's love breaks through. And as His love nears those touched with destruction and decay underneath the heel of the enemy of their souls they receive new life.

The second that the paradise He went to prepare for us is very near.

I believe this to be a reminder to all of us of His care and personal interaction in our lives down to the greatest of detail.
