# Summary of Available Teaching Evaluations of Binita Saha

I. Scores Normalized out of 6

II. Highlights of Student Comments from some courses taught

1. <u>CHEM 1046 (GTA, Spring 2023) at Virginia Tech</u>

   - "Binita was incredibly kind and caring. She made sure we all left lab with an in-depth understanding of what we did that day and left feeling prepared for our lab report."
   - "She is kind and helpful. I hope she does well in her endeavors."
   - "Great TA that loves Chemistry and very nice."
   - "Was always willing to take time to explain things to the group if they were struggling and expressed genuine interest in the experiment we were running."
   - "She thoroughly explained the objectives of the lab before we started so that we were all on the same page and knew what we were doing."
   - "Explained real life applications of why the labs would be important."
   - "Literally the biggest queen EVER. She is by far the best lab TA I have ever had. She was so kind and truly cared about her students. She would walk around & help students constantly and that was so helpful. She took time to learn her student's names and that showed how sweet she was. I am very sad that this class is ending because of her."

2. <u>MACR 5016 (Instructor, Spring 2025) at Virginia Tech</u>

   - "The explanation of polymer rheology was very clear, and I learned a great deal about polymer processing and reinforcement."
   - "I had little prior knowledge in the field of polymers, but this semester I learned a great deal about polymer-related concepts and experimental equipment, such as the extruder, 3D printing devices, infrared spectroscopy, and contact angle measurement. This greatly broadened my horizons and expanded my knowledge."

3. <u>CHEM 113 (Instructor, Spring 2019)</u>

   - "Binita should teach Gen. Chem I, she is an incredible instructor. I would recommend her to any student for any subject because I know she would be great!!"
   - "She is an amazing instructor and helps the students immensely. Makes the content easy to understand and was very encouraging."
   - "Very understanding and works well with students."
   - "She was so helpful & sweet during lab sessions."
   - "She cared about the subject matter and answered questions as best she could."
   - "Was very nice and answered all questions."
