Zelle to Fran Kehr 713-703-9433

Kim was a featured presenter at the USDF Annual Convention where she presented “Bit Fitting and the Equine Athlete.”

She is highly sought after for her unique qualifications to provide riders with the ability to try many different bits and bridles in sessions guided by Kim. She works with riders one-on-one in a traditional clinic format.

Bit Fitting clinic is free and open to all HDS Members.

Kim works with Herm Sprenger, Neue Schule, Bomber, Trust and Myler bits. She has added Otto Schumacher, Bridle2Fit, Tota Comfort System, Passier and Schockemohle anatomic bridles to her clinics as she also believes that these bridles can significantly improve the comfort and the performance of many horses.
