Natural Stone (Marble, Travertine, Limestone, Slate and Granit) – **A.** Pre-spray with an enzyme, agitate, and extract with soft water. **B.** Hone or polish to a specific gloss. **C.** Epoxy fill and hone “pop outs.” **D.** Natural stone seal. Water base or solvent based for stone enhancement.
A. \$0.75 cents per square foot. B. \$1.00 - \$1.50 per square foot per step. C. Inspect before quote. D. \$ 0.25 - \$0.75 cents per square foot depending on type of penetrating seal.

Tile and Grout Pre-spray with a 1 Ph or 12 Ph cleaner and rotary agitate. Then high pressure rinsed with soft water to leave the tile and grout chemical free.
\$0.55 cents per square

Grout sealing\Color Sealing After cleaning grout it can be sealed to make it water proof, so dirt cannot soak into it when it is mopped.
\$0.18 cents per square foot solvent base grout seal. Color sealing \$1.00 per square feet

Stripping\Top Scrubbing\Waxing VCT Remove all wax or top scrub and neutralize floor before applying of high gloss finish.
\$ 0.50 per sq. ft. to top scrub and recoat. \$0.85 per sq. ft. to remove all wax and apply 5 coats of high gloss finish.

Maintaining VCT Dry mopping, wet mopping or light scrubbing with neutral cleaner, then high-speed burnishing to complete the process.
\$0.18 cents per square foot

Residential Carpet – Pre-vacuum, pre-treat with an enzyme, and neutral rinse with 3.5 Ph acidic water to neutralize all soap. If the carpet is heavily soiled, we rotary shampoo before rinsing.
\$50 - \$70 per room (12x12) depending on odor and soiling.

Commercial Carpet - Pre-spray with an enzyme and extract with an acidic rinse to keep the carpet at a 7 ph. This keeps the carpet from attracting dirt longer.
\$0.28 - \$0.35 cents per square foot

Sincerely,

Bobby Brewer
