Re: Letter of Support for Track & Field Project of Western School Division

Dear Sir/Ma'am:

On behalf of City of Morden, I am writing this letter in support of Western School Division's grant application to fund the construction of a track and soccer field project adjacent to the new school. This project will provide much needed and accessible athletic facilities for our students and be open for use by all community members of the City of Morden.

The new school is set to open next year, and we believe that the addition of a track and soccer field will greatly enhance the lives of students and the community at large. Our goal is to provide a safe and inclusive environment where individuals of all abilities, ages, and cultural backgrounds can participate in athletics and enjoy the benefits of physical activity. This project will bring our community together by providing a shared space for athletes, families, and supporters to gather and participate in activities that promote inclusivity and physical health.

I fully support the efforts of the Western School Division as they apply for funding for this project. Your approval to this grant application will improve quality of life for the students and the residents of Morden.

Thank you.

Sincerely,

Nicole Reidle, CMMA
City Manager
