Section 5 Students' Comments

Please include your comments about the class discussions, readings, papers or projects, examinations or teaching style

1) This class was amazing! My favorite part is how prof Ramirez makes a hard concept easy to comprehend. I learned a lot of real world experiences with this class.

2) I love the size of this class also professor Ramirez kept finding lots of practical opportunities for us to learn.

3) Overall I have enjoyed this class and found the content to be applicable to what we may encounter in our job upon graduation. One area where the course could be improved is clearly outlining how one topic links to the next and the content that is being taught to be included in the calendar of the syllabus as reading. Apart from that loved the discussions and projects we have done in the class.

- Mean 1 is the mean for this instructor for the question on the corresponding row.
