Section 5 Students' Comments

Please include your comments about the class discussions, readings, papers or projects, examinations or teaching style

1) -I wished there were clearer requirements for assignments. -I would have liked more incorporation from data metrics class. -Leadership content was very similar to required Leadership class (HRMA 4353) -I liked the assignment to take the personality test

2) Fantastic course, however I felt that at times I didn't know where the course was going.. I didn't participate as much as I wanted to. The homeworks were not my style and the organization of the course was different from other courses I've taken - not worse by any means just different, which was a bit confusing.

- Mean 1 is the mean for this instructor for the question on the corresponding row.
- Mean 2 is the overall mean for this question calculated over all graduate or undergraduate evaluations processed this semester. If the course number is less than 5000, Mean 2 is an overall undergraduate mean. Otherwise, it is the overall graduate mean.
- Mean 3 is the overall mean for this question calculated over all graduate and undergraduate evaluations processed this semester.
