

Providing Baby Essentials That Every Child Deserves

Dear friends of Little Miracles,

Halfway through 2026, we find ourselves reflecting on the hundreds of families who have reached out to Little Miracles, and the remarkable community that makes it possible to meet each one with practical help and care.

LITTLE MIRACLES • 2026 MID-YEAR DONOR UPDATE		
671 Baby Bundles. 465 Local Families. One Extraordinary Community.		
A look at how your donated essentials, financial gifts and volunteer hands are reaching local families.		
671	465	\$371,063
customized baby bundles filled	unique local families helped	estimated retail value of essentials distributed

Every number represents something tangible: a safe car seat, diapers, clothing in the next size, a stroller or formula for a baby whose family is struggling to make ends meet.

And behind every bundle is a family with a story.

"Recently laid off, every penny I have will go towards rent
next week
and my baby is low on diapers."

How Little Miracles Works...

Families begin with our **online application, available in English and Spanish**. Parents select six items that would most benefit their baby—from diapers, formula and clothing to car seats, strollers and portable cribs—and share the circumstances that have led them to ask for help.

Once approved, our all-volunteer **Miracle Crew** gets to work, matching essentials to the child's age, size and needs. Each customized bundle combines generously donated new and gently used items with critical essentials purchased through financial gifts.

For families who continue to demonstrate need, support can continue as their child grows. They may **reapply every 90 days**, allowing us to respond to changing developmental needs—from newborn essentials to larger clothing, the next diaper size, feeding supplies and toddler items—until the child reaches **36 months of age**.

"I am unemployed, my baby was born recently, and my husband's income isn't enough to cover our expenses. We live in a small room in a car repair shop.
I would be incredibly grateful for your support."

"I am a teenager and my first time becoming a parent. I am nervous and don't know what to expect. I don't talk to my family much and could use all the help that is offered.
I am worried, but excited."

"I am a domestic violence survivor and currently going through a divorce with my abuser. I am a single stay-at-home mother of three young kids—5, 4 and 1."

These are the families behind the **671 bundles filled so far this year**—parents navigating job loss, housing instability, domestic violence, single parenthood and the financial pressure of raising a young child with limited support.

Each story is different. Each bundle is too.

Your donated essentials and financial gifts, brought together by the caring hands of our volunteers, become a customized bundle created especially for one local child.

**671 baby bundles. 465 families.
\$371,063 in essential baby items distributed.
And we are only halfway through the year.**

This work is powered by donors, volunteers, businesses, foundations, faith communities and neighbors who believe local families should not have to face difficult seasons alone. Thank you for being part of this work and for believing as we do, that small acts of generosity can become truly something miraculous.

In gratitude,

Melissa Dantzig & Diana Keller
Cofounders, Little Miracles Inc.
