1963. From 1963 to present the names were transferred from American Legion Department of Illinois position cards of record. The position cards only listed one year through 1952. Afterwards they listed the crossing year. In 1963, the poster and cards list Donald Bright as commander and subsequently another 1963 card lists Charles Roseland. It is believed there was a shift in the installation dates and thus the appearance of duplicate years.
