

Capability Statement

Safety Risk

Safety Risk

Organisations are generally defined as *a group of people who work together in an organised way for a shared purpose* (Cambridge Dictionary). Organisations are complex, making complex decisions, undertaking complex tasks, made up of complex individuals. all operating in demanding and ever-changing environments.

Safety risks in general terms, are negative outcomes in relation to people, their health, their safety and their wellbeing. This incorporates both physical and mental health risks.

Managing safety risk is critical for organisations to ensure the work conducted is performed in a way that does not cause harm to workers, contractors, customers, and visitors.

- Frontline workers

Service Areas

BH Risk Consulting is a Sydney-based consultancy operating across all states and territories in Australia and New Zealand.

Working at your location or remotely depending on the project objectives.

The Benefits

Engaging an external consultant brings an independent view and an alternative perspective. Whether providing additional resources alongside internal teams, or a standalone role on an ad hoc basis, a third-party resource can be a valuable asset.

When implemented correctly, safety can become part of everyday operations, and not in addition to.

BH Risk Consulting's objective is to embed safety into your organisation's practices, being assessed and considered alongside all other risks.

Why BH Risk Consulting

BH Risk Consulting brings twenty years' experience in safety risk, in internal and external roles.

Experienced in both private and public sectors across many industries including construction, property and facility management, utilities, manufacturing, defence, health and education.

BH Risk Consulting provides the experience required to ensure risks are thoroughly and logically assessed in a cost-effective manner.

Working within the clients existing management systems, including procedures and risk matrices, to ensure the advice provided is clearly understood and communicated.
