on thursday 19 march, lawrence was scheduled to start work at 6:00 a.m. she did not report for duty. her manager called her mobile phone number but although the phone rang, the call was directed to voice messaging. the manager took no further action. lawrence had previously arranged to meet her friend suzy cooper at the nag's head that night. cooper attended the appointment but lawrence did not. cooper then attempted to contact lawrence by telephone. lawrence was normally a prolific user of her mobile, a samsung sgh-d900, so cooper was surprised when she was unable to attract a response. cooper attempted to contact lawrence again on the morning of friday, 20 march, but again without success.^[7] at this point cooper became alarmed and contacted mutual acquaintances including george forman, landlord of the nag's head, to obtain information concerning her possible whereabouts.

cooper telephoned claudia's father peter on 20 march to report the situation. peter telephoned his daughter's manager at goodricke college and was told that she had not reported for duty on either 19 or 20 march. peter then entered claudia's home using his own key in company with george forman.^{[7][8]} the two men found the house to be in an orderly state. the bed was made and there were unwashed dishes in the kitchen sink, suggesting she had eaten breakfast. lawrence's handbag containing her purse, bank cards and passport was in the house. the only significant items missing were her mobile phone, a set of hair straighteners and a rucksack which she normally used to carry her chef's whites to and from work. indications were that lawrence had left the house normally to go to work at around 5:00 a.m. on the morning of 19 march, but had never arrived.^[9]

the north yorkshire police (nyp) was contacted at around 2:00 p.m. on 20 march in order to report lawrence as a missing person. police officers met with lawrence's father at her home later that day. nyp was initially slow to act on grounds that lawrence was not a vulnerable person and there was no obvious evidence of violence. they considered it likely that she had decided to absent herself and would reappear after a few days. however, nyp officers checked her route to work and sent out a public request for information. lawrence's family became increasingly insistent that she must have been abducted. after five weeks nyp upgraded the enquiry from a missing person one to one of suspected murder.^[10]

Claudia Law

lawrence's disappearance caused difficulty arising out of her family's inability to manage her assets and liabilities. notably, they were unable to sell her house on which mortgage and other charges continued to accrue. lawrence's father, peter, a solicitor, campaigned for the law to be modified in order to allow the appointment of guardians for the affairs of

missing people. this campaigning eventually succeeded with the passing of the guardianship (missing persons) act 2017, which was introduced to parliament as a private members' bill. the bill, which came into force in july 2019, allows the family of a missing person to apply to the court for guardianship of that person's estate 90 days after the disappearance. the new law became popularly known as "claudia's law".[56] in 2024, her mother joan was involved in a podcast answers for claudia published by wondery.[57]

David Gomadza welcome the rules of court are guiding principles that tell you what to do and how to do it first you must always say I believe in the court of creation and I shall abide by the rules of this court and shall always do things according to the rules of this court in deciding the cases I am assigned to you must ask what can be done so that you know all your options before making choices the court system will make it easy to check files and ask the outcomes of the decision ask the court the final decision in any case.

THE AFTERLIFE CONVERSATION AND THE COUNCIL OF CREATION'S ANALYSIS.

Claudia steropertomn meaning claudia jerkerins as on house papers but changed before death to claudia certertyer i was born in a family of one and i got frequent arousal like this as a kid then i discovered that the police had things inside me (claudia jerkerins 28 april 2009 memory in use) then one day i heard a knock then one came in and said you little gol go and play outside then i ran outside then he followed and then that became that until i was 21 years and he said we can get married and i said ok out of fear then he said okay then i woke up dead at hell reception without memory and big Ya said my representative is from your country and will look at this case bodywhere i am in water tied to a log huge and deep to left

side of rivr dwernernet where i used to go as a kid house yes worth US\$7.6 million what exactly did he say he said i can but you choose to play hide and seek i have no time you are a grown up now so go to Ya if Ya is there then he will tell me where your body is otherwise...hi i am a police officer in york i was born there and has found out that i can contact the dead then i said who died mysteriously that Ya did not know how he died one said he said my representative can find out and ever since i was here at hell reception then i smiled because what this means is that Ya as God does not fully know how other things happen that means he is not a God so but just a clever human because if he were real God he would know so i wrote a manual to use so that if Ya is God as zues then he would know because he can force read my brain which i am against as well if he is God then he can simply ask me questions and not in suspense(suspension cancelled)

exactly 2444486sec later if you are in OST or 23867898sec if you are in heaven but in heaven you wont die because you are already died twice

was 21 years and he said we can get married and i said ok out of fear then he said okay today

Claudia woke up early in the morning and said today i will collect my house and start a new life and police officer ajerty ajerty also known as aserty michael s todods said i can but ask everyone what can be and offer 5% for the value of and quickly calculated the house value and shouted 23486 and screamed surely everyone will take US\$20000 and smiled and quickly calculated then sat down and said i can but can you and waited instantly something said i can but you chose to but then again we dont do things like this then he

laughed and said for US\$2.3 million think you are mad and he laughed knocking the car door with his knee then a young woman approached shaking and said i can but you delayed 10 hours i understand its closed now you should have told me i could have gone there with the others everyone got their house today only me everyone start thinking that you are planning to kill me and when i heard i literally shit myself and heard that you were off work then i relaxed so can we still go or we go then he opened the door and said i want you to know we can get married first then get the house do you still want and he agreed and she agreed then he just grabbed her head and hit on top so hard that she fainted then died the result is that while fainting the brain does not record any pain or struggle things Yahweh used to tell the cause of death but can tell what is causing or had caused the death now if we ask what happened this is her reply i died i just died then i heard a police man saying can we go now i think its not yet closed that means that the brain on recoil will not know what was first the death or the police man asking to go with her this is why he challenges Yahweh but Ya refused because that means that if there is a possibility that he came after death considering that she heard the policeman after death then he came after she died so not the killer if the brain can confuse time after a concussion (fainting after being hit in the head) that means after being hit in the head then the brain wont know the killer exactly but likely killers his argument he presented to the court is that where the evidence points to ambiguity then we can only say that the killer cannot be identified and the case must be dismissed the court of creation ruled that he is the killer but only because he challenged the courts decision to show off but not to

refute the allegationsso guilty
