A David Gomadza Production

If we can ask what can be of bitcoin by billgates and bitcoin by davidgomadza then both are equally valuable one as for money the other for life the one for the money can and can be for life but how this is the problem because we want to know how it's the other way because ours is for life now we can ask everyone if they want bitcoin for life for bitcoin for money if not then this is the Formula we need to use if we ask what can be bitcoin for life then it can be bitcoin for life and bitcoin for money that means that if we introduce an element like if we as then this is the required approach that means if we ask what can be done then this is the answer bitoin for life is great but alone probably not so great now what is bitcoin for money this is bitcoin like cash so can we convert bitcoin for cash to bitcoin for life and vice versa if yes then this is how to do it ask what is b in bitcoin and c in cash then vice versa substitute if b is bitcoin for money then b1 is bitcoin for life if we substitute then this is the new equation if b is b1 then b1 is b-b1 where b is real money bitcoin and b1 is real life bitcoin the equations:

$b-b1+x-y-z-t-u-v-s-t-o-p-t-s-u-j-m-n-o-p-q-r-s-t-u-v-j-q-r-s-t-u-v-w-y-s-y-d-j-m-n-o-p-q-r-s-t-u-j-x-y-z-v-sool=j-z-m-n-o-p-t-r-s.start$

if we ask nowwhat can be bitcoin (b) and bitcoin (b1) then this is the answer they all can be money if we add bitcoin+createbitcoinayt then we get bitcoin life (b1) now if

we subtract createbitcoinayt from bitcoin life we get real bitcoin for money that

means add bitcoin+createbitcoinayt=bitcoin1-createbitcoinayt+createbitcoinato.start

create.b+c+b+a+y+t=b1-c+b+a+y+t+c+a+t+o.start

I make sure that i am the one to separate perfectly all parts such that i can make
sure that you can fight perfectly by arranging you in positions so that you win fast
and trigger createbitcoinato at perfect times so as to advance forward and win very
aggressively
