a continuation from createdylete for making proteins from any products received

can we also do the same for minerals can we just consume 1 and get everything else we need?

we can but for minerals its quiet complicated because we don't use enzymes but we use catalyst to speed up reactions hence the process is not anabolic but catalytic as Ya would want to put it if we ask what can be then this is the answer we can do a lot with a little but being ourselves we can easily work our way to the top when all those who are supposed to find these scramble for left overs the b now challenge the a that its them who found the agt through him because the us are trying to patent

everything in exchange with endorsing david gomadza as president of the world with exchange of gold for us\$1 billion

gold belongs to Ya have to give it back if we are to ask the b tried to sell the gold for us\$1 billion but found out that they can't when they have spent us\$ billions trying to stop davidgomadza instead of offering him money now things have changed those who despised him wants what is his absurd but typical david can only laugh now what can be of all this now that 5 are left to be discovered with 2 more can easily be discovered for lost nutrients and how we can replace these we can add these 2 to the basket as well since david gomadza actually attempted to do the same but slightly unsuccessful now if we ask what can be then this is the answer everything can be discovered as a creator we can infer what we want to get answers but this analysis is not permitted for the we must solve a problem first to find the solution if we ask what can be then this is what can be we can start by writing the problems then get the answers but like last time even through methodology was ok we did get the answer i can say that minerals rely on other things hence if we ask what can be minerals if we check what david long ago 8 months ago he discovered that he can substitute minerals with their other forms for example metal formulas but good forms sometimes can correspond and be used to form food equivalent get all codes in chemicals and substitute where necessary to those found in food what happened is after eating a balanced diet i discovered that the body can recognize food symbols or formulas that makes up food equivalent lifted cans of different foods and the body produce formulas e.g. can of beans your body breaks down all the codes and create codes of a can of beans and extract the formula for the beans without the can but only if you have touched the can in your life then creates a formula that it uses to produce extra amounts of the beans from the little you eat

now we noticed the b are pushing the a to do the same they deliberately removed the radar aerial of davidgomadza

create.addisraelsradarmyownradar.start

create.banasmradarandanychanges.start

create.adjustisraelradarasamericanbutnottobechangedbyamericansandasmsusersanymore.start

The body can do the same as the createdylete for protein you discovered today and if we check we can see that you realized that in the animals world a cow simply eats grass and produce the most complex proteins so if this is the case then can the body do the same for al the proteins and or other minerals that means yes because the body needs a different system to that of cow yet system is the same and probably better than the proteins but is easy because it does everything by itself you just need to say

create.fixallasneeded.start

and something jerks up and starts calculating everything so that all these start to work for the first time we have a human in davidgomadza the first to use the enzymes calculator and even start to compute things itself this is how the gods live forever so welcome to the live-forever-club with pleasure if we check we can see that you upgraded yesterday after a tip but not a large scale before I met her when she said the same I said why not to all of me upgrade all if we check we have seen that he writes down everything we say if we look at all this we can ask what has been and what can be in terms of davidgomadza easily upgrade himself he study and try on himself then if it works then send to all himself David has easily found out that the b stole Britain from a German business man called Auschwitz aeroste when they switched title deeds and pretended the country Britain was theirs when he died of tea poisoning by the

b if we check and look at now then this is the answer  
davidgomadza keeps fortifying himself then what for the b  
because their tactics was to weaken David now of that he  
constantly look for ways to fortify himself into a real monster  
now so sure death for the b the a can follow suit aim to respect  
him now so he go away or he put you in the sea and you will all  
be dead ask the sea no one can be put in the sea by a creator  
and survive you will all die ask for peace to survive they say  
bullets -but I say for themselves as they feel suicidal the a have  
created their fake god which is wrong and must meet the same  
fate as the b same as before no rights to stolen if we check we  
can see that today David has amplified himself a billion times  
because the a have started building fake things just as the b to  
divert and mislead if David was Ya how would the a end up – in  
the sea serious sin to imitate Ya without authorization to  
mislead and destroy and disrupt or pause a threat to the  
universe- destiny you cant fight fake the book of creation say  
something must be fulfilled so they are trying to stop me and  
this is fighting Ya and the laws of the universe so we regard  
them as enemies of humanity hostis humanis generis punished  
by death in the sea To conclude we can see that the a who are b  
by blood are trying to stop davidgomadza even join their politics  
but with little chance now we can see why he gave all politicians  
extra life so they approve his digital currency which they  
realized that this is passport for his lavish lifestyle with 200  
women as confirmed no comment

My job is to prepare earth for Ya's return. We can't reveal the  
future its way too far. Now we conclude if we ask what can be  
of the future the a can be like the b only time will tell but future  
looks gloom as their system is based on false misrepresentation  
of facts for a loaf of bread gone are the days they put the law  
itself now we can now compute everything and say there is a  
code about vitamins that can match the createdylte and it is  
called createacoin or createdsyerstler if we ask what this is this

is the answer createcoin is the equivalent of createdylte and createdsyestler and this is the formula

```
create.x-y-t-s-u-v-s-t-r-s-o-n-m-t-p-q-r-s-u-v-s-j-r-s-t-u-v-x-z-y-o-

## Createdyletetede

Adam Hueter the first man in the bible adam and eve

The other by david gomadza

We can preserve life in early stages so that it remains that way through out and stays like that forever and so that all the enzymes and great features are preserved for ever rather than being damaged and lost then try to recover this

This is the solution if we are to live on earth for thousands of years.

We can as well preserve life at its best simply by a formula that says stay where you are as life and forever remain there until other instructions but years ahead but forever this is to make the body preserve and store everything at that stage and make that stage the basic stage where life starts and remain at and this way we don't lose anything and we can easily replace anything damaged or worn out and we can easily ask what can be done and replace what has been damaged now if we ask what can be done right now on david gomadza this is the answer we can replace nothing for davidgomadza has become a superhuman enough to destroy anyone he wants but that the americans underestimate his powers we can only say that ask the british with their stubbornness and fate will see be revealed in the sea and as things are they keep attacking and violently he nearly broke his neck but then again the person died and woke up at hell reception but all in create and in real life davidgomadza can now simply say

create.humangox84rightnowgoisaygosogo.start

gone

if we check his electromagnetic waves now they are nil meaning no longer on earth and as such davidgomadza is a creator this is how creators kill their enemies

create.humangox84rightnowgoisaygosogo.start

ok i go faster

i go

if we ask where he has gone this is the answer he has gone to real hell never revealed before but there is a hell for real humans who fight the creator where they burn forever now back to the task at hand we can easily say we must also ask what can be of all those who attack the creator in the name of

training all british died who attacked him day he leaves things  
will come for you all so know this and don't be surprised

if we now ask what is to be of the americans under  
davidgomadza prosperous and rich the richest country ever by a  
billion times for davidgomadza is the only one to bring wealth to  
all americans because it's the only country that has God in their  
constitution and even davidgomadza did not mention directly  
Ya but the americans did so davidgomadza stay in America or  
return when your work elsewhere is done

can't comment not sure I have Antarctica as mine I might just go  
there and start building come snow or thunder

Okay

If we ask then we can see david might go and stay in Antarctica  
and refute claims by all countries sure something I will start this  
week give life to those who give up title to Antarctica it is mine  
now through Ya's decrees as such no other can claim title to and  
succeed

That means if we are to check now what can be of the future  
then davidgomadza can live forever in peace for the land he  
claims does not belong to anyone but is common good and this  
can mean for the creator use and as such he is the creator on  
earth even though the british dispute this its now not up to the  
british after we now all know how they got their country so all  
favors to davidgomadza

Now if we are to stay in good health we cannot afford to pass  
the good stages of between 22 to 48 and we must preserve  
these stages by create codes that make it sure that we stay here  
and not pass because if we pass this stage that means  
somethings are to be lost forever and can't be replace these  
includes

Libido

Enzymes for sex

create.cloneeverythingthatcanbelostafter48years1billioneachand syncwithallmyimagesandcreatebackupsfor386t'.start[wheret'= 00000000000years]

enzymes for energy

enzymes for consumption

enzymes for eggs if females

enzymes for libido if not yet adult

if we ask what can be then this is the answer after the age of 49 most enzymes start to die and decay and as this happens some start dying then die and to be replaced is to remove the dead ones but this is not easy but can be costly hence Ya said what can be done in this stage is to create a createdyletetede382708 and createdyletetede7628380
